Subject: Applying for the position of web Developer.

Dear Hiring Manager,

I am writing to express my keen interest in the junior front-end developer position at **Programming Hero**. As a highly motivated CSE background and skilled React JS developer. I am eager to contribute my expertise in HTML, CSS, JavaScript, React and backend technologies like Node.js and MongoDB to drive web development excellence within a competitive environment.

As a former team leader, I quickly advanced to Project Manager and Senior Manager in just 6 months, showcasing dedication and work. This experience although not directly in development equipped me with strong leadership skills and adaptability to challenges.

Thank you for considering my application. I am eager to interview with **Programming Hero** and contribute as a junior front-end developer. Please let me know your preferred interview time and date.

Thank you once again for your time and consideration.

Sincerely,

**Iqbal Hossain**
