## Projects

### [Sports Academy](#)

This online store is built for manufacturers who want to show and sell their products online. Users can easily buy products and to pay they have to have a credit card.

An admin can add, edit, delete, update their product, and show and deliver to users who order. Admin can also make an admin other users if needed.

Built this site I used to react, tailwind CSS, daisy UI for design, firebase auth, and JWT for authentication. Nodejs, Express js for the backend, and
